ENJOY YOUR HOME
AND
LIVE YOUR OUTDOORS

R|O|D|A

EVERYONE CAN **FEEL WELL**,
AT EASE WITH
THEIR LOVED ONES
AND RECONCILED WITH **NATURE**,
WHILE **ENJOYING**
LIFE'S GENUINE PLEASURES
IN **OUTDOOR** SPACES
THAT ARE **BEAUTIFUL**
COMFORTABLE AND DURABLE.

Our vision

R|O|D|A

#ENJOYyourHOME

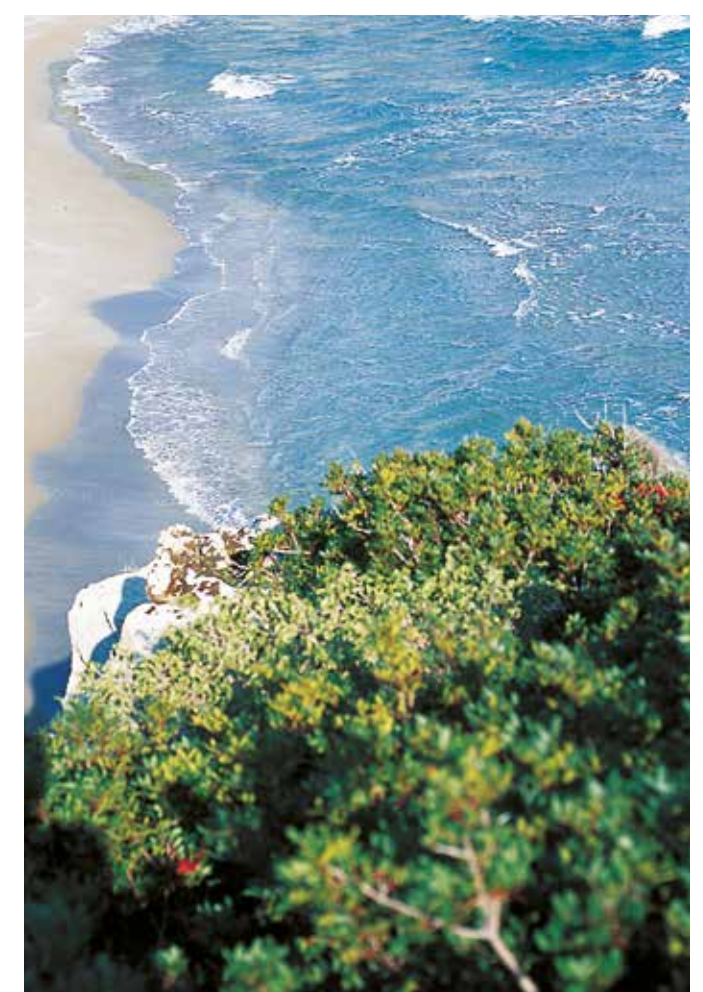

#LIVEyourOUTDOORS

Our home is a well-being experience, in all its forms. We aim to be surrounded by what makes our lives easier, pleasant, beautiful: **what makes us feel good.**

And as we are so used to replicate in the outdoor so many habits which we bring from the indoor, we are also aware that **the outdoor offers a much wider freedom.**

When getting out of the door, the domestic landscape, which we are familiar with and which belongs to us, suggests leisure, relax, and conviviality.

Designing the outdoor thus means **making an exclusive place our own's**, the space of ours, which we desire to furnish by taking care of the details, and where functionality and comfort also speak for our personality.

R|O|D|A

Outdoor Specialist

For many years now RODA has been **devoted to meet our customers' desire for tailor made and exclusivity**, remaining sensible to an ever evolving aesthetic and to nourishing an open dialogue between product and nature, either be a lawn, a tree, a plant, or simply a portion of the sky.

Both the **Outdoor Specialist** Team at RODA, and the one at your local dealer, are at your disposal for a **free and tailored consultancy**, offering to you new ideas on how to tailor your own outdoor.

**Enjoy your Home
and
Live your Outdoors!**

R|O|D|A

RODA Projects App

RODA Projects App is a digital tool which allows you to **configure** the RODA products in all the available finishes, as well as to shape them within a **virtual scene**, and to translate them into a real environment, thanks to the **Augmented Reality** function, you'll see and "almost touch" every product, full-scale and in a real surrounding environment.

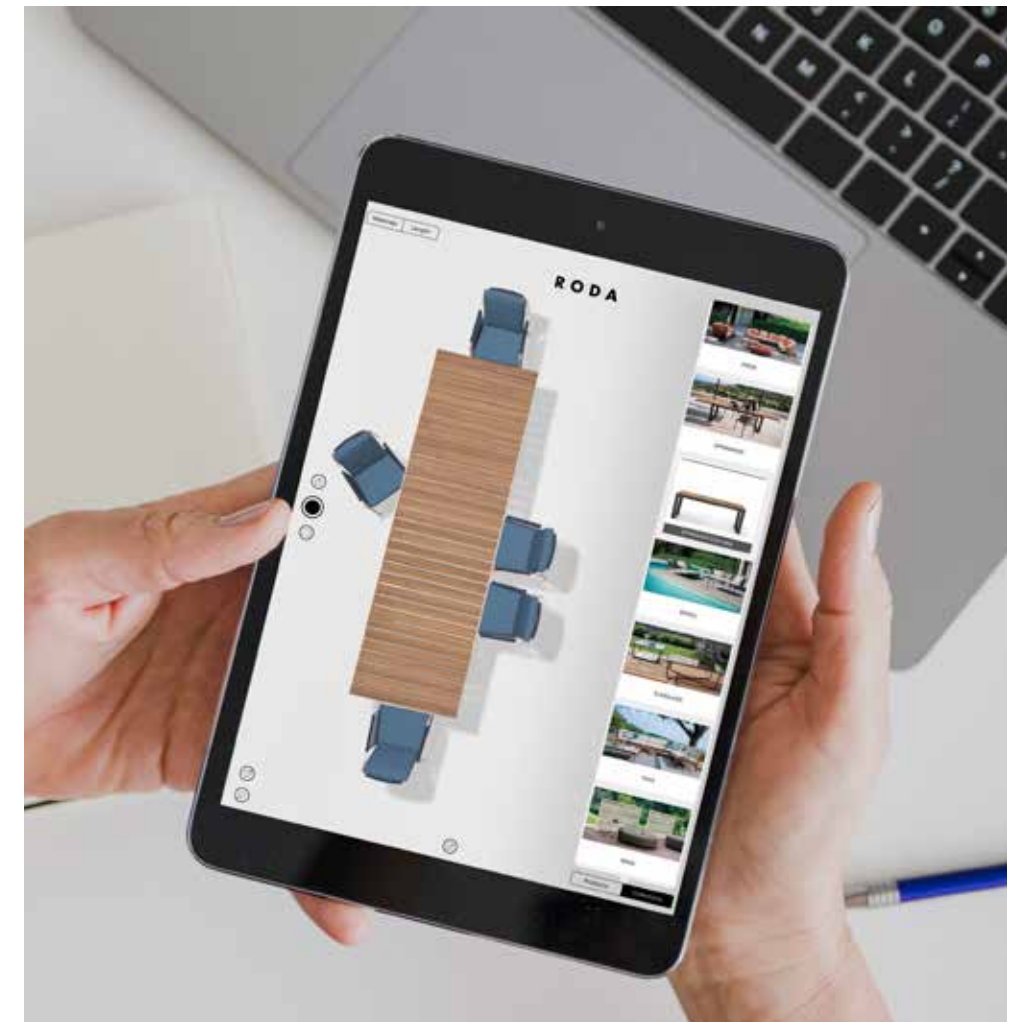

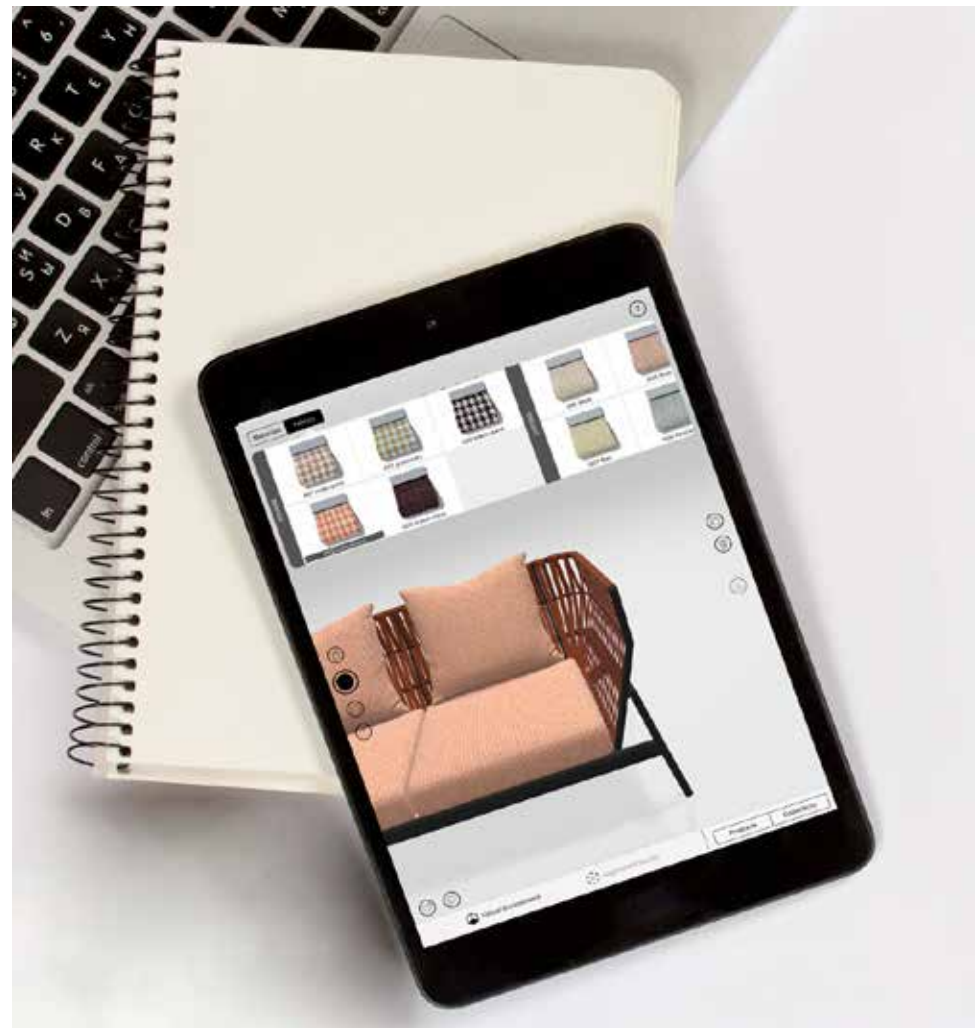

Any selected product **can be configured** in colour and material, choosing among all the available finishes in the wide RODA range.

Rather than just imagining how the products may look like in real life, the RODA Projects App brings you into a **realistic project**: with a few gestures on your smartphone or tablet display you will create a true to life set-up, thanks to the Augmented Reality function.

Download the RODA Projects App from the App Store for **free**.

RODA

Delivery Available

In compliance with the current regulations, RODA offers you the possibility to have furniture delivered **to your house**.

Please browse across the following pages and discover the wide selection of products which are available for **immediate delivery**.

R|O|D|A

Special Promotion

Within the RODA vision, attention to the Client and his satisfaction are of the utmost importance. If you like to enjoy your outdoor spaces, we are offering you the possibility to furnish them beautifully, directly with us.

Furthermore, **up to May 9th**, the opportunity to access a **20% discount** on a wide range of products is made available.

Please discover the available products across the **following pages**, where you will also find the retail price; just add the promotional discount reserved for you.

Alternatively, please visit **our website**, where you will find the entire range of products within our catalogue.

RODA

Hydro draining technology

HYDRO DRAINING TECHNOLOGY

The hydro-draining technology applied to RODA cushions, Dandy and Double collections enable the water to drain out fast and makes for the continuous recirculation of plenty of air, so that the stuffing dries up quickly, avoiding the risk of mould formation and product deterioration.

LA TECNOLOGIA IDRO DRENANTE

La tecnologia idro drenante, applicata ai cuscini RODA e alle collezioni Dandy e Double, si fonda sulla capacità di drenare velocemente l'acqua e di consentire un continuo ed abbondante ricircolo di aria, al fine di ottenere un'asciugatura rapida dell'imbottito e di evitare l'insorgere di muffe o il deterioramento del prodotto.

HYDRO DRAINING CUSHIONS

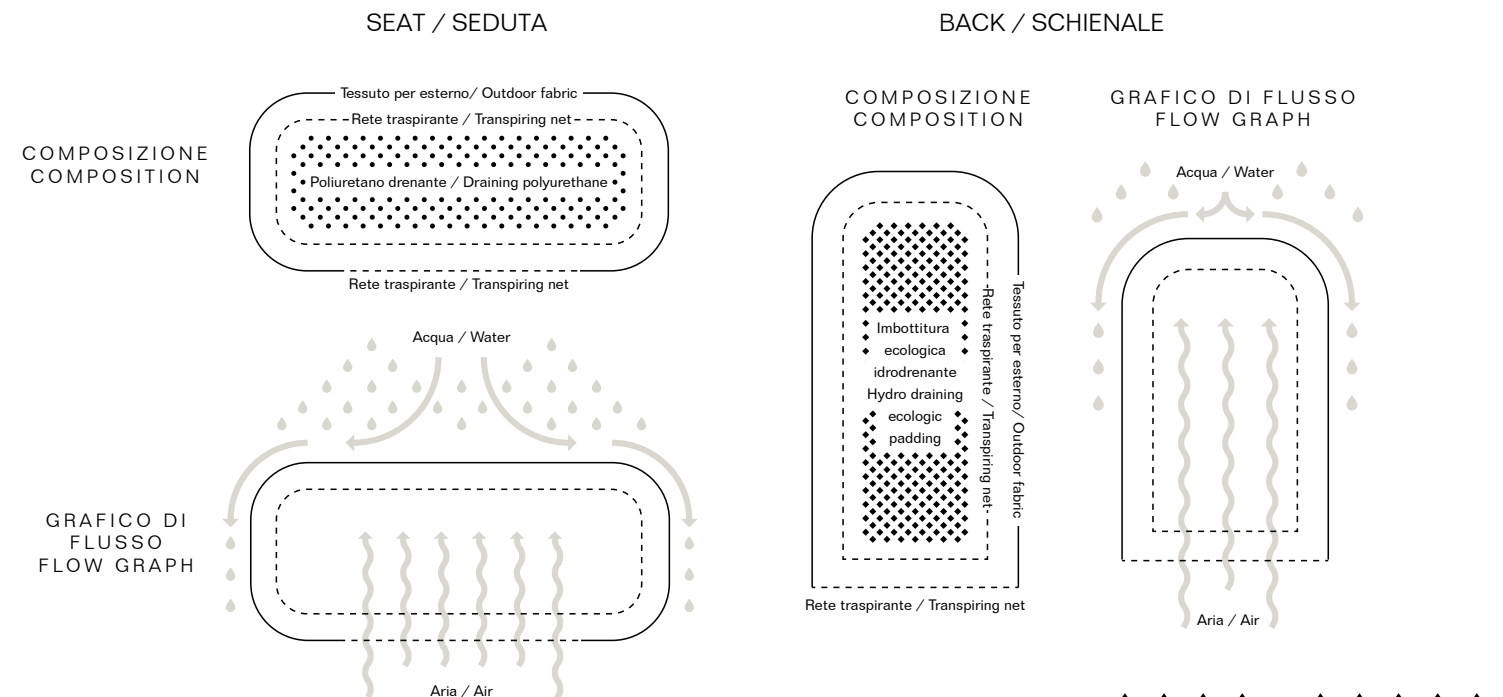

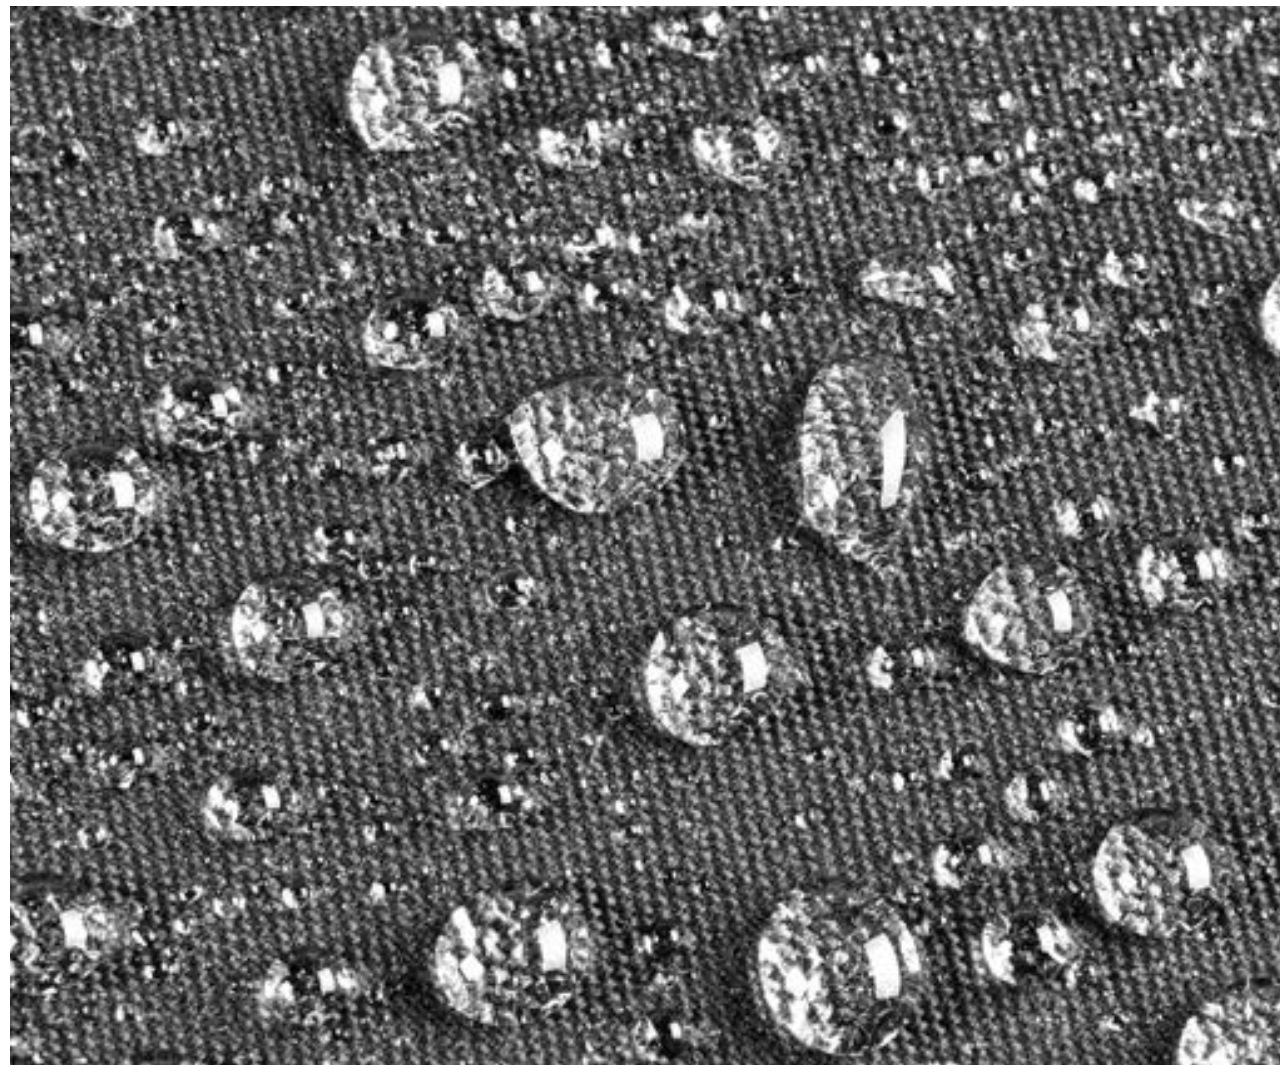

Hydro draining seat cushions use a padding made from open-cell draining polyurethane, enclosed in a transpiring net; the back cushions use a special eco-friendly natural fibre flock, similar to hemp and highly resistant to the atmospheric agents. The padding is enclosed in a technical net whereby the fibre is subdivided into several "chambers" resulting in a variable density cushion, which retains its volume over time and makes for improved comfort.

The bottom of both seat and back cushions uses a net that enables the water to flow out and the air to penetrate inside the cushions.

I CUSCINI IDRO DRENANTI

I cuscini di seduta idro drenanti sono realizzati impiegando un'imbottitura di poliuretano drenante a cella aperta, avvolto da una rete traspirante; i cuscini di schienale idrodrenanti contengono uno speciale fiocco di fibra ecologica naturale, simile alla canapa, resistente agli agenti atmosferici. Questa imbottitura è racchiusa in un involucro di rete tecnica che divide la fibra in diverse "camere" per costituire un cuscino a densità variabile, in modo da mantenere il volume nel tempo e favorire il comfort.

La parte inferiore dei cuscini di seduta e di schienale prevede una rete che consente la fuoriuscita dell'acqua e il passaggio dell'aria all'interno del cuscino.

HYDRO DRAINING TECHNOLOGY APPLIED TO THE UPHOLSTERED COLLECTIONS

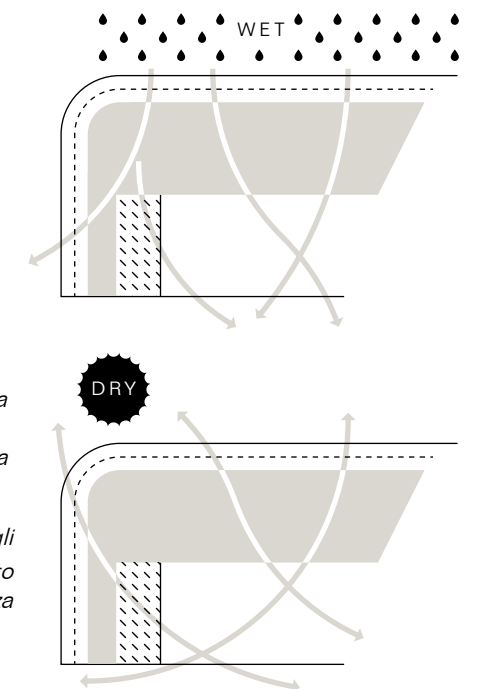

The upholstered collections have perfected the notion of breathability in hydro draining cushions, attaining the highest level of complexity and efficiency. For the upholstered collections Dandy and Double, RODA combines open-cell polyurethanes of different density, thus obtaining optimal water draining and perfect comfort. The 3D net, which covers and encloses the draining stuffing, gives the product a fine and complete appearance, even without the fabric cover.

The structures, which are then upholstered, are made of powder-coated aluminum, which besides being weather resistant, is light and durable.

LA TECNOLOGIA IDRODRENANTE APPLICATA ALLE COLLEZIONI IMBOTTITE

Le collezioni imbottite approfondiscono il concetto di traspirabilità dei cuscini idro-drenanti, portandolo al massimo livello di complessità ed efficienza. Per le collezioni di imbottiti Dandy e Double, RODA combina poliuretani a cella aperta di differenti densità, per consentire il drenaggio dell'acqua e assicurare un perfetto comfort di seduta. La rete 3D, che riveste e contiene l'imbottitura drenante, conferisce un aspetto gradevole e completo al prodotto, anche in assenza della fodera.

Infine le strutture, su cui vengono applicati gli imbottiti, sono prodotte in alluminio verniciato a polvere per garantire leggerezza, robustezza e totale resistenza agli agenti atmosferici.
